Overview

For 24 years, KnowledgeConnect has helped some of the largest companies in the United States share ways to excel in a variety of functional areas. Our confidential, collaborative forums help our clients tackle their most pressing business and technology challenges, drive innovation, and achieve substantial improvements in performance.

Industries

KnowledgeConnect's clients include over 70 members of the US Fortune 500 from multiple verticals. Many of our clients are market leaders in their categories, which include: manufacturing, technology, consumer packaged goods, insurance, banking and financial services, pharmaceuticals and entertainment.

Our practices

KnowledgeConnect currently offers sharing forums in the following areas: Information Security, IT Infrastructure & Operations, IT Network Management, IT End-User Experience, Intelligent Automation, and Facilities Management.
